

**you buy healthy produce...  
you drink organic juice...  
you take natural supplements...**

**Why should your detoxification  
medication be any different?**

The Detox-Kit, from the makers of Traumeel®, combines three scientifically formulated homeopathic remedies to relieve symptoms of illness caused by an unhealthy lifestyle (substance abuse, unbalanced diet, etc.) and/or exposure to environmental toxins (pollution, pesticides, allergens, etc.). The Detox-Kit works by stimulating the body's natural processes of elimination to cleanse itself of these poisons, which can build up over time and negatively affect the immune system.

The Detox-Kit consists of three formulations: Lymphomyosot® oral drops (17 active ingredients to stimulate the lymphatic system), Nux vomica-Homaccord® oral drops (4 active ingredients to stimulate the gastro-intestinal pathway and liver function), and Berberis-Homaccord® oral drops (3 active ingredients to stimulate kidney and gallbladder systems).

No pills or messy powders to deal with – simply add the recommended dosage to your daily amount of consumed water for safe, effective results – naturally!

Try the Heel Detox-Kit today.
